This attractive and substantial, brick-built village hall which dates back to the Roaring Twenties, has recently been fully refurbished and refreshed to meet current legislation.

Located adjacent to the village green, its new French doors open directly onto a small terrace which has safe access to the playing field beyond with its extensive selection of play equipment and seating. The main hall features mood lighting and spread lighting and there is a club room for smaller meetings and gatherings. With fully insulated walls and ceilings, a commercial stainless steel kitchen and disabled access and lavatory, this facility offers comfortable accommodation for many different requirements.
